AIA Document A101

Standard Form of Agreement Between Owner and Contractor

*where the basis of payment is a
STIPULATED SUM*

1987 EDITION

THIS DOCUMENT HAS IMPORTANT LEGAL CONSEQUENCES; CONSULTATION WITH AN ATTORNEY IS ENCOURAGED WITH RESPECT TO ITS COMPLETION OR MODIFICATION.

The 1987 Edition of AIA Document A201, General Conditions of the Contract for Construction, is adopted in this document by reference. Do not use with other general conditions unless this document is modified.

This document has been approved and endorsed by The Associated General Contractors of America.

The Owner and Contractor agree as set forth below.

Copyright 1915, 1918, 1925, 1937, 1951, 1958, 1961, 1963, 1967, 1974, 1977, ©1987 by The American Institute of Architects, 1735 New York Avenue, N.W., Washington, D.C. 20006. Reproduction of the material herein or substantial quotation of its provisions without written permission of the AIA violates the copyright laws of the United States and will be subject to legal prosecution.

ARTICLE 1 **THE CONTRACT DOCUMENTS**

The Contract Documents consist of this Agreement, Conditions of the Contract (General, Supplementary and other Conditions), Drawings, Specifications, Addenda issued prior to execution of this Agreement, other documents listed in this Agreement and Modifications issued after execution of this Agreement; these form the Contract, and are as fully a part of the Contract as if attached to this Agreement or repeated herein. The Contract represents the entire and integrated agreement between the parties hereto and supersedes prior negotiations, representations or agreements, either written or oral. An enumeration of the Contract Documents, other than Modifications, appears in Article 9.

ARTICLE 2 **THE WORK OF THIS CONTRACT**

The Contractor shall execute the entire Work described in the Contract Documents, except to the extent specifically indicated in the Contract Documents to be the responsibility of others, ~~including~~ ~~the following~~

ARTICLE 3 **DATE OF COMMENCEMENT AND SUBSTANTIAL COMPLETION**

3.1 The date of commencement is the date from which the Contract Time of Paragraph 3.2 is measured, and shall be the date of this Agreement, as first written above, unless a different date is stated below or provision is made for the date to be fixed in a notice to proceed issued by the Owner.

(Insert the date of commencement, if it differs from the date of this Agreement or, if applicable, state that the date will be fixed in a notice to proceed.)

within 60 calendar days of the signing of the Contract, weather permitting.

Unless the date of commencement is established by a notice to proceed issued by the Owner, the Contractor shall notify the Owner in writing not less than five days before commencing the Work to permit the timely filing of mortgages, mechanic's liens and other security interests.

3.2 The Contractor shall achieve Substantial Completion of the entire Work not later than

(Insert the calendar date or number of calendar days after the date of commencement. Also insert any requirements for earlier Substantial Completion of certain portions of the Work, if not stated elsewhere in the Contract Documents.)

sixty (60) calendar days, weather permitting.

, subject to adjustments of this Contract Time as provided in the Contract Documents.

(Insert provisions, if any, for liquidated damages relating to failure to complete on time.)

ARTICLE 4
CONTRACT SUM

4.1 The Owner shall pay the Contractor in current funds for the Contractor's performance of the Contract the Contract Sum of eighty-two thousand five hundred and no hundredths Dollars (\$82,500.00), subject to additions and deductions as provided in the Contract Documents.

4.2 The Contract Sum is based upon the following alternates, if any, which are described in the Contract Documents and are hereby accepted by the Owner:

(State the numbers or other identification of accepted alternates. If decisions on other alternates are to be made by the Owner subsequent to the execution of this Agreement, attach a schedule of such other alternates showing the amount for each and the date until which that amount is valid.)

Principal Bid Sum Number Three (#3)

(Coal tar BUR system/insulated/gravel surface for Fire Station Number Two (#2); coal tar BUR system/insulated/gravel surface/Roof Area D, and SBS modified asphalt roofing system/Roof Areas A, B, and C for Fire Station Number Thirteen (#13).

\$82,500.00

(The cost for Informative Bid Number One, Informative Bid Number Two, and the Performance and Material Payment Bond is included in the Principal Bid Sum.)

4.3 Unit prices, if any, are as follows:

The unit prices below shall determine the value of extra work or changes in the work, as applicable. It shall be considered complete and shall include all material and equipment, labor, installation costs, overhead and profit. Unit prices shall be used uniformly for additions or deductions.

1. Unit Price #1 - Fire Station #13 only.

The removal and replacement of damaged or dryrotted wood trim and blocking with wolmanized treated wood. The cost per lineal foot based on a 2 x 8 dimension for the sum of \$3.50 per lineal foot.

2. Unit Price #2 - Fire Station #13 only.

The removal and replacement of rusted out or damaged metal roof decking which is not shown or scheduled to be replaced. The cost per square foot for the sum of \$18.00 per square foot.

ARTICLE 5 **PROGRESS PAYMENTS**

5.1 Based upon Applications for Payment submitted to the Architect by the Contractor and Certificates for Payment issued by the Architect, the Owner shall make progress payments on account of the Contract Sum to the Contractor as provided below and elsewhere in the Contract Documents.

5.2 The period covered by each Application for Payment shall be one calendar month ending on the last day of the month, ~~unless otherwise~~.

5.3 Provided an Application for Payment is received by the Architect not later than the fifth (5th) day of a month, the Owner shall make payment to the Contractor not later than the thirtieth (30th) day of the same month. If an Application for Payment is received by the Architect after the application date fixed above, payment shall be made by the Owner not later than days after the Architect receives the Application for Payment.

5.4 Each Application for Payment shall be based upon the Schedule of Values submitted by the Contractor in accordance with the Contract Documents. The Schedule of Values shall allocate the entire Contract Sum among the various portions of the Work and be prepared in such form and supported by such data to substantiate its accuracy as the Architect may require. This Schedule, unless objected to by the Architect, shall be used as a basis for reviewing the Contractor's Applications for Payment.

5.5 Applications for Payment shall indicate the percentage of completion of each portion of the Work as of the end of the period covered by the Application for Payment.

5.6 Subject to the provisions of the Contract Documents, the amount of each progress payment shall be computed as follows:

5.6.1 Take that portion of the Contract Sum properly allocable to completed Work as determined by multiplying the percentage completion of each portion of the Work by the share of the total Contract Sum allocated to that portion of the Work in the Schedule of Values, less retainage of ten percent (10%). Pending final determination of cost to the Owner of changes in the Work, amounts not in dispute may be included as provided in Subparagraph 7.3.7 of the General Conditions even though the Contract Sum has not yet been adjusted by Change Order;

5.6.2 Add that portion of the Contract Sum properly allocable to materials and equipment delivered and suitably stored at the site for subsequent incorporation in the completed construction (or, if approved in advance by the Owner, suitably stored off the site at a location agreed upon in writing), less retainage of ten percent (10%);

5.6.3 Subtract the aggregate of previous payments made by the Owner; and

5.6.4 Subtract amounts, if any, for which the Architect has withheld or nullified a Certificate for Payment as provided in Paragraph 9.5 of the General Conditions.

5.7 The progress payment amount determined in accordance with Paragraph 5.6 shall be further modified under the following circumstances:

5.7.1 Add, upon Substantial Completion of the Work, a sum sufficient to increase the total payments to ninety-five percent (95%) of the Contract Sum, less such amounts as the Architect shall determine for incomplete Work and unsettled claims; and

5.7.2 Add, if final completion of the Work is thereafter materially delayed through no fault of the Contractor, any additional amounts payable in accordance with Subparagraph 9.10.3 of the General Conditions.

5.8 Reduction or limitation of retainage, if any, shall be as follows: None.

(If it is intended, prior to Substantial Completion of the entire Work, to reduce or limit the retainage resulting from the percentages inserted in Subparagraphs 5.6.1 and 5.6.2 above, and this is not explained elsewhere in the Contract Documents, insert here provisions for such reduction or limitation.)

ARTICLE 6 **FINAL PAYMENT**

Final payment, constituting the entire unpaid balance of the Contract Sum, shall be made by the Owner to the Contractor when (1) the Contract has been fully performed by the Contractor except for the Contractor's responsibility to correct nonconforming Work as provided in Subparagraph 12.2.2 of the General Conditions and to satisfy other requirements, if any, which necessarily survive final payment; and (2) a final Certificate for Payment has been issued by the Architect; such final payment shall be made by the Owner not more than 30 days after the issuance of the Architect's final Certificate for Payment, ~~xx xx xx xx xx xx~~

ARTICLE 7 **MISCELLANEOUS PROVISIONS**

7.1 Where reference is made in this Agreement to a provision of the General Conditions or another Contract Document, the reference refers to that provision as amended or supplemented by other provisions of the Contract Documents.

7.2 Payments due and unpaid under the Contract shall bear interest from the date payment is due at the rate stated below, or in the absence thereof, at the legal rate prevailing from time to time at the place where the Project is located.

(Insert rate of interest agreed upon, if any.)

(Usury laws and requirements under the Federal Truth in Lending Act, similar state and local consumer credit laws and other regulations at the Owner's and Contractor's principal places of business, the location of the Project and elsewhere may affect the validity of this provision. Legal advice should be obtained with respect to deletions or modifications, and also regarding requirements such as written disclosures or waivers.)

7.3 Other provisions:

None.

ARTICLE 8 **TERMINATION OR SUSPENSION**

8.1 The Contract may be terminated by the Owner or the Contractor as provided in Article 14 of the General Conditions.

8.2 The Work may be suspended by the Owner as provided in Article 14 of the General Conditions.

ARTICLE 9

INSTRUCTION SHEET

FOR AIA DOCUMENT A101, STANDARD FORM OF AGREEMENT BETWEEN OWNER AND CONTRACTOR where the Basis of Payment is a STIPULATED SUM—1987 EDITION

A. GENERAL INFORMATION

1. Purpose

AIA Document A101 is intended for use on construction projects where the basis of payment is a stipulated sum (fixed price). It is suitable for any arrangement between the Owner and Contractor where the cost has been set in advance, either by bidding or by negotiation.

2. Related Documents

This document has been prepared for use in conjunction with the 1987 edition of AIA Document A201, General Conditions of the Contract for Construction, which is adopted into A101 by a specific reference. This integrated set of documents is suitable for most projects; however, for projects of limited scope, use of AIA Document A107 may be considered.

The A101 document may be used as one part of the Contract Documents which record the Contract for Construction between the Owner and the Contractor. The other Contract Documents are:

- General Conditions (i.e., A201)
- Supplementary Conditions
- Drawings
- Specifications
- Modifications

Although the AIA does not produce standard documents for Supplementary Conditions, Drawings, or Specifications, a variety of model and guide documents are available, including AIA's MASTERSPEC.

3. Arbitration

This document incorporates ARBITRATION by adoption of AIA Document A201, which provides for arbitration according to the Construction Industry Arbitration Rules of the American Arbitration Association. Arbitration is BINDING AND MANDATORY in most states and under the federal Arbitration Act. In a minority of states, arbitration provisions relating to future disputes are not enforceable, but arbitration is enforceable if agreed to after the dispute arises. A few states require that the contracting parties be especially notified that the written contract contains an arbitration provision by: a warning on the face of the document, specific placement of the arbitration provision within the document or specific discussions among the parties prior to signing the document.

Arbitration provisions have been included in most AIA contract forms since 1888 in order to encourage alternative dispute resolution procedures and to provide users of AIA documents with legally enforceable arbitration provisions when the parties choose to adopt arbitration into their contract. Individuals may, however, choose to delete the arbitration provisions based upon their business decisions with the advice of counsel. To obtain a copy of the Construction Industry Arbitration Rules, write the American Arbitration Association, 140 West 51st Street, New York, NY 10020.

4. Use of Non-AIA Forms

If a combination of AIA documents and non-AIA documents is to be used, particular care must be taken to achieve consistency of language and intent. Certain owners require the use of owner-contractor agreements and other contract forms which they prepare. Such forms should be carefully compared with the standard AIA forms for which they are being substituted before execution of an agreement. If there are any significant omissions, additions or variances from the terms of the related standard AIA forms, both legal and insurance counsel should be consulted.

5. Letter Forms of Agreement

Letter forms of agreement are generally discouraged by the AIA, as is the performance of a part or the whole of the Work on the basis of oral agreements or understandings. The standard AIA agreement forms have been developed through more than seventy-five years of experience and have been tested repeatedly in the courts. In addition, the standard forms have been carefully coordinated with other AIA documents.

6. Use of Current Documents

Prior to using any AIA document, the user should consult the AIA, an AIA component chapter or a current AIA Documents Price List to determine the current edition of each document.

7. Limited License for Reproduction

AIA Document A101 is a copyrighted work and may not be reproduced or excerpted from in substantial part without the express written permission of the AIA. The A101 document is intended to be used as a consumable—that is, the original document purchased by the user is intended to be consumed in the course of being used. There is no implied permission to reproduce this document, nor does membership in The American Institute of Architects confer any further rights to reproduce them.

A limited license is hereby granted to retail purchasers to reproduce a maximum of ten copies of a completed or executed A101, but only for use in connection with a particular Project. A101 may not be reproduced for Project Manuals. Rather, if a user wishes to

include it as an example in a Project Manual, the normal practice is to purchase a quantity of the pre-printed forms and bind one in each of the Project Manuals. Partial modifications, if any, may be accomplished without completing the form by using separate Supplementary Conditions.

Upon reaching agreement concerning the Contract Sum and other conditions, the form may be removed from the manual and such information, except for the signatures, may be added to the blank spaces of the form. The user may then reproduce up to ten copies to facilitate the execution (signing) of multiple original copies of the form, or for other administrative purposes in connection with a particular Project. Please note that at least three original copies of A101 should be signed by the parties as required by the last provision of A101.

B. CHANGES FROM THE PREVIOUS EDITION

1. Format Changes

Two new articles have been added: Article 8, Termination or Suspension; and Article 9, Enumeration of Contract Documents.

2. Changes in Content

The 1987 edition of A101 revises the 1977 edition to reflect changes made in the most recent (1987) edition of A201. It incorporates alterations proposed by architects, contractors, owners and professional consultants. The following are some of the significant changes made to the contents from the 1977 edition of A101:

Article 1: A specific statement has been added that the Contract represents the entire agreement between the parties, superseding previous negotiations and writings.

Article 2: Space has been provided to describe any exceptions to the description of Contractor's scope of Work.

Article 3: In the title of this article, "Time of Commencement" has been changed to "Date of Commencement."

Article 4: Space has been provided for insertion of the amounts relating to alternates and unit prices.

Article 5: The Progress Payments article has been substantially rewritten and expanded. Detailed directions have been added on how and when payments shall be calculated and applied for.

Article 6: Further details have been added to clarify the conditions under which final payment shall be made by the Owner.

Article 7: The reference to definitions contained in the Conditions of the Contract has been deleted because the A201 document is now specifically adopted by reference under Article 9.

Article 8: This is a new article containing references to the General Conditions.

Article 9: This article is new. The A101 Document and the A201 Document are explicitly enumerated as parts of the Contract Documents. Spaces are provided for information specifically identifying the other Contract Documents, including the Supplementary Conditions, Specifications, Drawings and Addenda, if any.

Signature Page: It is noted above the signature lines that this agreement is executed on at least three original copies. See the instructions pertaining to Limited License for Reproduction.

C. COMPLETING THE A101 FORM

1. Prospective bidders should be informed of any additional provisions which may be included in A101, such as liquidated damages or provisions for stored materials, by an appropriate notice in the Bidding Documents and the Supplementary Conditions.

2. Modifications

Users are encouraged to consult an attorney before completing an AIA document. Particularly with respect to contractor's licensing laws, duties imposed by building codes, interest charges, arbitration and indemnification, this document may require modification with the assistance of legal counsel to fully comply with state or local laws regulating these matters.

Generally, necessary modifications may be accomplished by writing or typing the appropriate terms in the blank spaces provided on the form or by Supplementary Conditions, special conditions or amendments included in the Project Manual and referenced in this document. The form may also be modified by striking out language directly on the original pre-printed form. Care must be taken in making these kinds of deletions, however. Under NO circumstances should pre-printed language be struck out in such a way as to render it illegible (as, for example, with blocking tape, correction fluid or X's that completely obscure the text). This may raise suspicions of fraudulent concealment or suggest that the completed and signed document has been tampered with. Handwritten changes should be initiated by both parties to the contract.

It is definitely not recommended practice to retype the standard document. Besides being outside the Limited License for Reproduction granted under these Instructions, retyping can introduce typographical errors and cloud the legal interpretation given to a standard clause when blended with modifications.

Retyping eliminates one of the principal advantages of the standard form documents. By merely reviewing the modifications to be made to a standard form document, parties familiar with that document can quickly understand the essence of the proposed relationship. Commercial exchanges are greatly simplified and expedited, good-faith dealing is encouraged, and otherwise latent clauses are exposed for scrutiny. In this way, contracting parties can more fairly measure their risks.

3. Cover Page

Date: The date represents the date the Agreement becomes effective. It may be the date that an oral agreement was reached, the date the Agreement was originally submitted to the owner, the date authorizing action was taken or the date of actual execution. It

will be the date from which the Contract Time is measured unless a different date is inserted under Paragraph 3.1.

Identification of Parties: Parties to this Agreement should be identified using the full address and legal name under which the Agreement is to be executed, including a designation of the legal status of both parties (sole proprietorship, partnership, joint venture, unincorporated association, limited partnership or corporation [general, closed or professional], etc.). Where appropriate, a copy of the resolution authorizing the individual to act on behalf of the firm or entity should be attached.

Project Description: The proposed Project should be described in sufficient detail to identify (1) the official name or title of the facility, (2) the location of the site, if known, (3) the proposed building type and usage, and (4) the size, capacity or scope of the Project, if known.

Architect: As in the other Contract Documents, the Architect's full legal or corporate titles should be used.

4. Article 1—The Contract Documents

The Contract Documents must be enumerated in detail in Article 9. The Contractor's bid itself may be incorporated into the Contract; similarly, other bidding documents, bonds, etc., may be incorporated, especially in public work.

5. Article 2—The Work of This Contract

Portions of the Work which are the responsibility of persons other than the Contractor and which have not been otherwise indicated should be listed here.

6. Article 3—Date of Commencement and Substantial Completion

The following items should be included as appropriate:

Paragraph 3.1

The date of commencement of the Work should be inserted if it is different from the date of the Agreement. It should not be earlier than the date of execution (signing) of the Contract. After the first sentence, enter either the specific date of commencement of the Work, or if a notice to proceed is to be used, enter the sentence, "The date of commencement shall be stipulated by the notice to proceed." When time of performance is to be strictly enforced, the statement of starting time should be carefully weighed.

Paragraph 3.2

The time within which Substantial Completion of the Work is to be achieved may be expressed as a number of days (preferably calendar days) or as a specified date. Any requirements for earlier Substantial Completion of portions of the Work should be entered here if not specified elsewhere in the Contract Documents.

Also insert any provisions for liquidated damages relating to failure to complete on time. Liquidated damages are not a penalty to be inflicted on the Contractor, but must bear an actual and reasonably estimable relationship to the Owner's loss if construction is not completed on time. If liquidated damages are to be assessed because delayed construction will result in actual loss to the Owner, the amount of damages due for each day lost should be entered in the Supplementary Conditions or the Agreement. Factors such as confidentiality or the need to inform Subcontractors about the amount of liquidated damages will help determine the location chosen.

The provision for liquidated damages, which should be carefully reviewed or drafted by the Owner's attorney, may be as follows:

The Contractor and the Contractor's surety, if any, shall be liable for and shall pay the Owner the sums hereinafter stipulated
as liquidated damages for each calendar day of delay until the Work is substantially complete. Dollars
(\$).

For further information on liquidated damages, penalties and bonus provisions, see AIA Document A511, Guide for Supplementary Conditions, Paragraph 9.11.

7. Article 4—Contract Sum

Paragraph 4.1

Enter the Contract Sum payable to the Contractor.

Paragraph 4.2

Identify any alternates described in the Contract Documents and accepted by the Owner. If decisions on alternates are to be made subsequent to execution of A101, attach a schedule showing the amount of each alternate and the date until which that amount is valid.

Paragraph 4.3

Enter any unit prices, cash allowances or cash contingency allowances.

If unit prices are not covered in greater detail elsewhere in the Contract Documents, the following provision for unit prices is suggested:

The unit prices listed below shall determine the value of extra Work or changes in the Work, as applicable. They shall be considered complete and shall include all material and equipment, labor, installation costs, overhead and profit. Unit prices shall be used uniformly for additions or deductions.

Specific allowances for overhead and profit on Change Orders may be included under this paragraph to forestall disputes over future Change Order costs.

8. Article 5—Progress Payments

Paragraph 5.2

Insert the time period covered by each Application for Payment if it differs from the one given.

Paragraph 5.3

Insert the time schedule for presenting Applications for Payment. Insert the day of the month progress payments are due, indicating whether such day is to be in the same or the following month after receipt by the Architect of the relevant Application for Payment.

The last day upon which Work may be included in an Application should normally be no less than 14 days prior to the payment date, in consideration of the 7 days required for the Architect's evaluation of an Application and issuance of a Certificate for Payment and the time subsequently accorded the Owner to make payment in Article 9 of A201. The Contractor may prefer a few additional days to prepare the Application.

Due dates for payment should be acceptable to both the Owner and Contractor. They should allow sufficient time for the Contractor to prepare an Application for Payment, for the Architect to certify payment, and for the Owner to make payment. They should also be in accordance with time limits established by this Article and Article 9 of A201.

Subparagraph 5.6.1

Indicate the percent retainage, if any, to be withheld when computing the amount of each progress payment.

The Owner frequently pays the Contractor 90 percent of the earned sum when payments fall due, retaining 10 percent to ensure faithful performance. These percentages may vary with circumstances and localities. The AIA endorses the practice of reducing retainage as rapidly as possible, consistent with the continued protection of all affected parties. See AIA Document A511, Guide for Supplementary Conditions, for a complete discussion.

Subparagraph 5.6.2

Insert any additional retainage to be withheld from that portion of the Contract Sum allocable to materials and equipment stored at the site.

Payment for materials stored off the site should be provided for in a specific agreement and enumerated in Paragraph 7.3. Provisions regarding transportation to the site and insurance protecting Owner's interests should be included.

Subparagraph 5.7.1

Enter the percentage of the Contract Sum to be paid to the Contractor upon Substantial Completion.

Paragraph 5.8

Describe any arrangements to reduce or limit retainages indicated in Subparagraphs 5.6.1 and 5.6.2, if not explained elsewhere in the Contract Documents.

A provision for reducing retainage should provide that the reduction will be made only if the Architect judges that the Work is progressing satisfactorily. If the Contractor has furnished a bond, demonstration of the surety's consent to reduction in or partial release of retainage must be provided before such reduction is effected. Use of AIA Document G707A is recommended.

9. Article 6—Final Payment

Insert the date by which Owner shall make final payment, if it differs from the one stated.

When final payment is requested, the Architect should ascertain that all claims have been settled or should define those which remain unsettled. The Architect should obtain the Contractor's certification required by Article 9 of A201 and must determine that, to the best of the Architect's knowledge and belief and according to final inspection, the requirements of the Contract have been fulfilled.

10. Article 7—Miscellaneous Provisions

Paragraph 7.2

Enter any agreed-upon interest rate due on overdue payments.

Paragraph 7.3

Insert other provisions here.

11. Article 9—Enumeration of Contract Documents

A detailed enumeration of all Contract Documents must be made in this Article.

D. EXECUTION OF THE AGREEMENT

The Agreement should be executed in not less than triplicate by the Owner and the Contractor. Each person executing the Agreement should indicate the capacity in which they are acting (i.e., president, secretary, partner, etc.) and the authority under which they are executing the Agreement. Where appropriate, a copy of the resolution authorizing the individual to act on behalf of the firm or entity should be attached.

Notes to Financial StatementsS.E. Jahn Roofing, Inc., Fort Wayne, IndianaDecember 31, 1989 and 19881. Summary of Significant Accounting Policies

The Company records profits on fixed-price construction contracts on the percentage-of-completion basis, determined by the ratio of costs incurred to management's estimate of total anticipated costs. As these construction contracts progress, revisions in cost and profit estimates are reflected in the accounting period in which the facts which require the revision become known. If estimated total costs on any contract indicate a loss, the Company provides currently for the total loss anticipated on the contract. The asset, "Costs and estimated earnings in excess of billings on uncompleted contracts," represents revenues recognized in excess of amounts billed. The liability, "Billings in excess of costs and estimated earnings on uncompleted contracts," represents billings in excess of revenues recognized.

For income tax purposes, the Company records profits on construction contracts on the completed contract method. Deferred income taxes have been provided for differences between income for financial reporting and tax purposes.

Revenues from time-and-material contracts are recognized currently as the work is performed.

Inventories are valued at the lower of costs or market with cost being computed by the first-in, first-out method.

The Company follows the policy of providing depreciation on both the straight-line and accelerated methods for both financial reporting and tax purposes over the estimated useful lives of the assets which are as follows:

Building improvements	7 - 31 years
Office equipment	5 - 8 years
Machinery and equipment	4 - 8 years
Transportation equipment	3 - 5 years

7. Income Taxes

The components of income taxes are as follows:

	<u>Year Ended December 31,</u>	
	<u>1989</u>	<u>1988</u>
Current	\$ (15,244.00)	\$ (662.00)

	<u><u>\$ 5,812.00</u></u>	<u><u>\$ 1,780.29</u></u>

(continued)

7. Income Taxes (continued)

Total income tax expense is different from the amount computed by applying the federal graduated rates to earnings before income taxes. The reasons for the differences are as follows:

	Tax Effect		Percentage of Pre-Tax Income	
	Year Ended December 31, 1989	1988	Year Ended December 31, 1989	1988
Expected income taxes (credits) at the federal graduated rates	\$ 4,038.46	\$ 10,472.25	15.0 %	16.9 %
Increase (reductions) in taxes resulting from:				
State income tax - net of federal tax benefit	1,773.54	(504.75)	6.6	(.8)
Other	<u>-o-</u>	<u>(8,187.21)</u>	<u>-o-</u>	<u>(13.2)</u>
	<u><u>\$ 5,812.00</u></u>	<u><u>\$ 1,780.29</u></u>	<u><u>21.6 %</u></u>	<u><u>2.9 %</u></u>

A reconciliation of cash paid during the years for income taxes is as follows:

	Year Ended December 31,	
	1989	1988
Income tax expense	\$ 5,812.00	\$ 1,780.29
Decrease in accrual	515.00	10,827.10
Increase in refundable	16,318.00	<u>-o-</u>
Increase in deferred income taxes	<u>(21,056.00)</u>	<u>(2,442.29)</u>
<u>Net Taxes Paid</u>	<u><u>\$ 1,589.00</u></u>	<u><u>\$ 10,165.10</u></u>

8. Leases

The Company leases equipment and buildings from the shareholder and another company owned by the shareholder, Woodlands Leasing. The Company charged to rent expense \$59,878.30 and \$60,103.74 for the years ended December 31, 1989 and 1988, respectively, under month-to-month leases with the related parties. Other short-term leases resulted in charges to operations of \$16,840.22 and \$2,898.37 during 1989 and 1988, respectively. The Company accounts for all of these as operating leases.

9. Prior Period Adjustments

Retained earnings at the beginning of 1988 has been adjusted to correct two errors on the 1987 financial statements. Included in operations for 1987 was \$36,673.00 from an insurance audit premium which was received and paid in 1988 but should have been expensed in 1987. Management also determined that \$3,733.05 included in accounts receivable were bad debts deemed uncollectible and should have been written off in 1987. Had the misstatements not been made, net income for 1987 would have been decreased by \$23,831.05 net of income taxes of \$16,575.00.

10. Account Receivable - Woodlands

This account receivable in the amount of \$145,562.49 and \$153,803.00 at December 31, 1989 and 1988, respectively, represents the balance due from a related corporation. A summary of the activity in this account follows:

	<u>Year Ended December 31,</u>	
	<u>1989</u>	<u>1988</u>
Balance - beginning of year	\$ 153,803.00	\$ 138,900.19

Payments	(8,240.51)	-o-
Balance - end of year	<u>\$ 145,562.49</u>	<u>\$ 153,803.00</u>

11. Interest Expense

A reconciliation of cash paid during the years for interest is as follows:

	<u>Year ended December 31,</u>	
	<u>1989</u>	<u>1988</u>
Interest expense	\$ 51,061.96	\$ 44,752.10
